powered by TripProximity™

5 easy steps to effectively implement
your **smart event trip tool**.

It's painless. **Really.**

Not technical? No problem. AFWPI, in partnership with Solutionz Innovations brings you smart events, powered by TripProximity. This works for wedding venues and planners.

This smart trip technology lets your visitors easily check availability and book a room at hotels nearby your venue or event. It also gives them driving directions and optional car rental or air tickets.

Here's the win:

TIME MATTERS

It's hotel booking offered when they are deciding their plans. You and the bridal party save time from answering the question "where should I stay?".

PROXIMITY MATTERS

When the guests arrive, the booked hotel is in close proximity, which saves time getting to you.

GIVING MATTERS

In addition to giving you a 10% royalty on all bookings made, we donate 10% of our revenue to your charity of choice. If you are a non-profit that goes up to 25% of our revenue as a direct donation to your 501c3.

BEFORE YOU GET STARTED

Placement matters.

The smart trip tool can be hosted on our site or if you host landing pages for each of your events, it can be easily installed on your site.

If your client has a site that they are using to communicate with their guests, you can link to the tool from their wedding site, or if the site allows you to embed HTML in the site, you can install the tool right in their site.

If your client wants to just send a booking link to their out of town attendees, they can text or email the link to their custom event page to their list.

Determine your point person.

Implementing the smart event trip tool can be quickly done by any user that has rights of authorship on your website.

This might be you, your webmaster, ecommerce administrator or your marketing firm.

Then determine who is going to coordinate with the guests to communicate that the tool is available for their use.

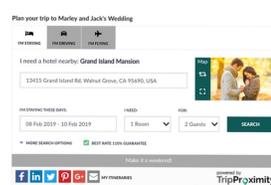

Register

A screenshot of the TripProximity registration form. It includes fields for Name, Email Address, Phone, Organization Name, Password, and Confirm Password. There is a 'Create new account' button and a 'Log In' link.

Build

A screenshot of the TripProximity build questionnaire. It asks for Event Name, Location, Start Date, End Date, and other details. There is a 'Start Now' button.

Share

A screenshot of the TripProximity share page. It shows a search bar for 'Grand Hotel Mission' and a search button. There are social media sharing icons for Facebook, Twitter, LinkedIn, and YouTube.

1

Details you will need to Register

Gather address, dates of event and the image you want to use in order to complete the building of your smart trip tool. If there is a link for the RSVP for the event, or more information on the venue, grab the link.

2

Build it on our portal

Click on Start Now on TripProximity.com. You will register and then fill out the simple questionnaire. It walks you through the steps using the details you have gathered. The toolkit creates a "snippet of code or gives you the opportunity to host the tool on our site.

3

Share the tool with the event guests

If you are using the hosted version, bookmark the URL and share with the guests. If you are installing it, open an HTML container or edit in Text Mode and paste the snippet of code. Save the page. You will see the widget rendered on your page. Either way, let your client know the page URL.
